EDUCATION

Rensselaer Polytechnic Institute (RPI)

Bachelor of Science, Computer Science — GPA: 3.01

Troy, NY

May 2026

Dean's Honor List

Relevant Coursework: Data Structures, Computer Organization, Foundations of Computer Science, Information & Data Systems, Intro to Logic-Based AI, Software Analysis & Debugging, Database Systems, Operating Systems

EXPERIENCE

BeiGene (now BeOne)

June – August 2024

Automation & Process Intern — Summer Internship

- Configured Sartorius single-use mixers end-to-end: set IP address/gateway/subnet via BootP, connected to company network through ethernet patch panel, and redirected SUM tags in Rockwell Studio 5000.
- Backed up Siemens Single-Use Bioreactors (SUBs) and created automated backup jobs in Octoplant, reducing risk of configuration loss.
- Used PI data historian to build graphs tracking temperature and environmental sensor data for operations review.
- Configured Blue Line Mobile Operator Station for company network access.

Onondaga County Parks & Recreation

June – August 2023

Park Aide — Jamesville Beach

- Independently managed entrance ticket booth: collected fees, provided park information, and handled daily cash reconciliation including counting, receipt verification, recording, and safe deposit.
- Prepared pavilions and grounds for large group events; performed routine facility maintenance using tractors and other equipment.

PROJECTS

RCOS Project Meridian — React, JavaScript

- Built an interactive club management dashboard in React providing an intuitive interface for officers and members to manage rosters, roles, and administrative tasks.
- Designed an event tracking system displaying upcoming and past events with a clean, user-friendly layout.
- Created a study history feature allowing users to log and review past study sessions; focused on clean UI/UX throughout.

UPAC Family Feud Website — React

- Designed and built a live Family Feud game interface in React for use during campus-wide UPAC events, enabling smooth real-time game operation in front of a large student audience.

RPI Hackathon — 2023, 2024, 2025

- Participated in three consecutive years of RPI's annual 24-hour intercollegiate hackathon, designing and building projects under tight time constraints.

LEADERSHIP

RPI Union Programming & Activities Committee (UPAC)

2022 – 2026

General Chair / President (2025–2026) | **Vice General Chair** (2023–2024) | **Social Media Chair** (2022–2023)

- Led campus-wide event programming and budget management, overseeing multiple subcommittees and coordinating large-scale student events including Union After Darks and UPAC Field Day.
- Represented UPAC on the Rensselaer Union Executive Board; contributed to strategic planning and budgeting for all campus-funded clubs.
- Designed promotional materials and digital marketing campaigns to drive student engagement.

Softball Club

2022 – 2026

Secretary

- Maintained attendance and meeting records, designed promotional materials, and coordinated club communications and events.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, HTML/CSS, R, x86 Assembly, Prolog

Frameworks & Libraries: React.js

Tools & Platforms: AWS, Linux (WSL), Git, VSCode, JetBrains IDEs, Google Workspace, Microsoft Office
